

INTEGRATED RISK MANAGEMENT SOFTWARE TO IMPROVE PATIENT SAFETY

SIMPLE, YET POWERFUL TECHNOLOGY
TO SUPPORT INTERNATIONAL
HEALTHCARE ORGANIZATIONS

SUPPORTING THE QUEST FOR EXCELLENCE

Here at Radar Healthcare, we're dedicated to helping international healthcare organizations such as those in the Middle East and Africa through our advanced technology.

Our award-winning software provides an all-in-one approach to managing risk, quality and compliance related activity; bringing together many operational and often complex processes into one platform. With Radar Healthcare, you'll gain transparency and assurance while also enabling connected ways of working – ultimately helping to deliver improved healthcare outcomes through:

A focus on excellence reporting and continuous improvement

The management and prevention of incidents and risk

Flexible technology that fits your organizational needs

Quality improvement plans

Improved communication and collaboration

A safe cloud-based software to support your strict IT measures

- ✓ Inquests
- ✓ Serious Incidents
- ✓ Excellence

Partnering with Emirates Health Services (EHS)

Emirates Health Services (EHS) is a regulator of the healthcare sector in UAE. They aim for global leadership, with healthcare that is in line with the highest standards of excellence. EHS selected Radar Healthcare for 17 hospitals and 73 primary care centres across the region. We help them deliver clinical incident reporting and patient safety outcomes.

H.E. Dr. Yousef AlSirikal, Assistant Undersecretary for Hospitals, Emirates Health Services said:

"Our key focus is to improve patient safety. We believe that incident and risk management reporting offered by Radar Healthcare's accredited system and MEMITS' expertise in delivering cutting-edge solutions, will support us in achieving the safest patient care in the region."

INTRODUCING RADAR HEALTHCARE

“The analytical capabilities that Radar Healthcare offers really excites us. Detailed, real-time data makes a big difference in terms of sharing information and understanding trends. We can spot things quickly, whether good or bad. Sharing these insights with everybody to improve the way we work is really exciting.”

**Paula Wiggins, Governance Systems Manager
at Somerset NHS Foundation Trust**

Founded in 2012 by Paul Johnson and Lee Williams, Radar Healthcare is dedicated to making healthcare safer.

Our software has been developed in partnership with healthcare professionals to ensure organisations always meet regulatory standards through one single, easy-to-use system.

Working with organisations across all areas of health and social care, we're passionate about improving healthcare outcomes through intuitive and innovative software.

**Working with organisations globally across all areas of healthcare,
we're passionate about improving quality and safety.**
