

CQC DASHBOARDS

Introducing the CQC Dashboards from Radar Healthcare!

This market-leading solution empowers teams and organisations to enhance regulatory compliance by providing real-time insights through user-friendly dashboards. Effortlessly monitor, manage, and elevate regulatory outcomes with Radar Healthcare's CQC Dashboards.

Developed in collaboration with the Radar Healthcare Community and health and social care partners, our innovative CQC Dashboards integrate feedback and observation events and dashboards. This update to the events module package is designed to meet the evolving needs of the CQC framework.

KEY FEATURES

Comprehensive Regulatory Evidence

- Effortlessly showcase your performance to regulators with customised dashboards designed for tracking observations and capturing feedback.

Integrated Data Collection

- Efficiently collect and categorise feedback from various channels, including QR codes and internal modules such as audits, workforce compliance, observation and feedback events etc. to ensure thorough insights.

CQC Aligned Insights

- Stay ahead with real-time scores for each domain/location and "we" statements, aligned with the CQC framework, providing clear visibility into your performance.

KEY BENEFITS

Real-Time Insights

- Instantly view and understand observations across various categories. Identify areas for improvement to enhance CQC scores, leading to a stronger reputation, higher occupancy rates, and greater operational efficiency.

Effortless Compliance

- Seamlessly capture and analyse feedback from residents, families, and staff using external QR codes or other modules. This data funnels directly into Radar Healthcare, enabling you to present evidence to regulators quickly and efficiently.

Stress-Free Assessments

- Be assessment-ready at all times with instant access to comprehensive data specific to each "we" statements. Saving valuable time and enabling you to evidence excellent care.

34

“we” Statements

Create CQC scores aligned to all 34 quality statements

5

Key Questions

Easily determine how data relates to all 5 key questions e.g. “How are my audits relating to the SAFE question”

1

Market-leading Solution

An industry first, there are no other systems enabling you to track and measure these metrics

RADAR HEALTHCARE'S CQC DASHBOARDS

Track your progress and gather insights in just a few clicks with our new observations and feedback dashboards and events

“The main opportunities lie in capturing feedback, managing observations, and ensuring evidence is easily accessible. For our users, this means having data sets available with just a couple of clicks. We believe that it’s essential to keep the customer at the heart of product design, not just for the new CQC dashboards, but for all our projects.”

Mark Fewster, Chief Product Officer at Radar Healthcare
