

THE BENEFITS OF CONNECTING RADAR HEALTHCARE AND CARE PLANNING SOFTWARE

- ✓ Save carers time
- ✓ Remove duplication and potential human error
- ✓ Seamless for staff
- ✓ Underpin processes
- ✓ Improve person-centered care.

1 Carer raises incident/event into Care Planning Software.

2 Radar Healthcare instantly captures information, eliminating the need for caregivers to duplicate incident reports.

3 The automated investigation process begins

7 The resident's care plan is automatically updated with the relevant learnings.

4 ACTION PLANS completed

6 Investigation is complete and feedback loop closed

5 Learnings are automatically fed back into care planning software

Using Radar Healthcare's analytics and dashboards, all learnings from all incidents can be fed back into care planning software, which leads to a true person-centered approach for all residents.

OUTCOME & RESOLUTION

IMPROVED CARE

BEST QUALITY OF LIFE FOR ALL RESIDENTS
